SPAZ
HARVO

It is the year 3235 on the planet Mobius and the war being fought upon its surface lands has entered its eleventh year. A war that began as another had just concluded. A war that had its origins from the seeds of betrayal within.

Warlord Julian had seized the power and authority of the House of Acorn, and exiled the King forevermore to the Zone of Silence. Upon which, Julian became Robotnik and began a systematic conquest of the now-renamed Robotropolis and all its inhabitants.

It is now the eve of what may prove to be the final battle between the successors to the House of Acorn and its usurper. A battle full of heroes and villains, winners and losers, those that survive and those who have fallen...
